

Questions to Help You Determine if Scenario Planning is Necessary

Discuss the following questions as a team to determine if it would be beneficial to conduct or update a scenario planning exercise.

Team Description	Next Steps
<p>Has the team adequately anticipated initiative disruption of their care transformation?</p>	<p>YES: * How? (e.g., via scenario planning or a similar exercise) * What are the most likely types of disruption? Are there response measures in place that the team is ready to implement should the disruption(s) occur?</p> <p>NO: * Consider conducting scenario planning for implementation and maintenance of the care transformation.</p>
<p>Has the team adequately anticipated potential facilitators or opportunities that could enhance, strengthen, expand, or help sustain their care transformation?</p>	<p>YES: * How? (e.g., via scenario planning or a similar exercise) * What are the most likely types of potential facilitators or opportunities that might appear? * Are there response measures in place and ready to be implemented should the potential facilitators or opportunities appear?</p> <p>NO: * Consider conducting scenario planning for implementation and maintenance of the care transformation.</p>
<p>Has the team adequately anticipated initiative disruption of their payment model?</p>	<p>YES: * How? (e.g., via scenario planning or a similar exercise) * What are the most likely types of disruption? Are there response measures in place the team is ready to implement should the disruption(s) occur?</p> <p>NO: * Consider conducting scenario planning for the implementation and maintenance of the payment model.</p>
